Powering Businesses

iPower is an Integrated Information Technology Solutions provider in Jeddah, Saudi Arabia. We aim to drive change by empowering local businesses through information technology and modern software solutions.

Integrating Success

iPower has been strengthening industrial operations in the Kingdom by providing businesses with technological advantages. With a local presence and global capabilities, the company specializes in offering a range of IT solutions and services, from installations, warehousing, digital signage to data centers, IT products, and technical manpower provisions.

OUR STORY

Transformation through Technology

Our purpose stands to drive change for businesses today so they can be competitive in the long term. This passion made its way in the city of Jeddah in 2016 when iPower started with a small office.

Within years of offering our dedicated services, we established our headquarters. Ever since then, our unique offerings and unparalleled customer service have allowed us to grow as we expand our reach across the Kingdom.

VALUES

Curating Relationships

Values that Boost Progress

Our well-knitted values allow us to unlock an environment of creativity and mutual trust with our clients. We not only support you technologically but support you to win success in your relevant industry by constantly remaining “tech”-edgy.

Vision

“To creatively build technology that drives impact and makes life better for everyone, everywhere — be it an individual, organization or community.”

Mission

“To deliver excellent customer experience in the markets of our operation and hence be known as a leading IT System integrator company in Saudi Arabia.”

Customer Commitment

iPower is here to boost the success of our customers. Our team is dedicated and committed to providing expertise and services that lead to long-lasting relationships of trust and quality. With our distinctive offerings, we make sure to create a positive difference in our customers' business.

Quality

By maintaining strong quality assurance, our technological offerings and products are delivered end-to-end to create maximum value for our customers. Keeping a strong check and maintaining each and every detail, quality is always maintained.

Reliability

We remain in line with changes in the digital landscape and adapt our services accordingly. Timely delivery and cutting-edge tech provision make us one of the leading IT service providers across the Kingdom.

Integrity

Honesty is the key for us to move forward. Our operations are conducted in complete transparency. We take our customers and workers in confidence to make sure that every deliverable is done keeping in line with the highest ethical and moral standards.

Accountability

With commitment comes accountability. We remain by the side of our customers until they are satisfied with our services. We take responsibility for our actions and demonstrate efforts to evolve and improve based on constant feedback. We are personally accountable for delivering on our commitments.

Reliable and Professional Services

To thrive in today's competitive digital landscape, technological innovation helps businesses break through the clutter. Our high-end IT services and products are a one-stop, shop for the needs of modern businesses and integrate well within the technology Infrastructure that boosts operational productivity.
